

HAYDEN LAKE IRRIGATION DISTRICT

2160 W. Dakota Ave., Hayden, Idaho 83835-5122

Ph: (208) 772-2612 Fax (208) 772-5348

www.haydenirrigation.com

To All Backflow Assembly Testers,

It's that time of year already when we start to collect backflow tester applications and remind all the backflow testers of our rules and regulations.

Overall, last year everyone did a great job getting the completed test reports to us in a timely manner, thank you!

We would like to remind you of a few items the District requires:

- all fields on the test report must be completed
- the test report must be signed
- Notify the District of failed assemblies
 - within 24 hours if water is left on
 - within 72 hours if water is left off
- the District requires all assemblies be tagged appropriately (Pass/Fail) after test procedures have been performed.
- test equipment calibration information must be current
- Backflow Assembly Tester (BAT) certification must be current

In order to become a Hayden Lake Irrigation District (HLID) approved backflow tester we need the application completed. The completed application may be dropped off at our office, mailed to 2160 W. Dakota Ave Hayden, Idaho 83835, faxed to 208-772-5348, or emailed to district@haydenirrigation.com.

You will find the application on our website www.haydenirrigation.com under Backflow Program - Certified Testers page. On this same page you will find the approved test form accepted by all local water purveyors. The test form may be printed out or you can fill it in on-line. While on our website please remember we have a service area map for our District and the surrounding area. You will find this under About Us - Service Area. We hope the map helps you determine what water purveyor serves the area and needs to receive the test report.

Hayden Lake Irrigation District requires all lawn sprinkler systems to be tested when the system is recharged (turned on) and/or prior to June 30th. The system doesn't have to be operating by June 30th but a satisfactory backflow test report must be submitted prior to June 30th.

The "Approved Testers List" provided to our customers is based on the information you provide on the application, so please submit a legible and complete application. The approved testers list can be found on our web site or in our office. The approved testers list is updated on our web site monthly and weekly in our office. It is your responsibility to keep all contact information, test equipment calibration and Backflow Assembly Tester (BAT) certification current with our office. Testers who fail to update their records will be removed from the "Approved Tester list" until information has been updated.

If you have any questions or need additional information, please contact our office using the number above or via email to district@haydenirrigation.com.

We appreciate your assistance with protecting public health and preventing contamination of the drinking water.

Sincerely,

Hayden Lake Irrigation District

BACKFLOW TESTER RULES AND REGULATIONS

1. The person performing the test (Tester) must provide Hayden Lake Irrigation District (HLID) a current copy of their Backflow Assembly Tester license issued by the State of Idaho.
2. Tester shall maintain calibration records on all test equipment and provide a current copy to HLID.
3. **No** reminders will be sent by HLID to you of expired certification/calibration.
4. Test reports shall be **legible** and **complete** (complete all fields related to the assembly tested and test equipment information). **An incomplete test form will be rejected.**
5. Tester shall be notified by HLID of rejected test reports:
 - Seventy-two (72) hours will be provided to correct the matter
 - The property owner will be notified within seven (7) days if a response has not been received by HLID
6. **Passing test** reports shall be submitted within seven (7) days of the date of the test.
7. **Failed test** reports shall be submitted within seventy-two (72) hours of the test (assembly turned off) and be accompanied by a time estimate of when the repairs will be made.
8. Test reports may be dropped off at our office, mailed or faxed using the information above or emailed to district@haydenirrigation.com. Illegible or incomplete reports will be rejected.
9. Lawn irrigation systems must be tested when the system is recharged (turned on) and/or prior to June 30th. The system does not have to be operating by June 30th but a satisfactory backflow test must be submitted prior to June 30th.
10. Tester may be contacted by HLID to observe the tester perform a test within the boundaries of Hayden Lake Irrigation District.
11. Test reports may be immediately rejected under the following circumstances:
 - Contains incomplete or known inaccurate information
 - Illegible
 - Signed by individual not on HLID's approved testers list
 - HLID accepted test form **not** used and/or modified
 - Test is signed by individual other than person who actually performed the test
 - Test report not submitted within the seven (7) day requirement.
 - Tester license is expired
 - Test equipment has expired calibration report
