Fourth Quarter Water Bill

The water bill included with this newsletter is your 4th quarter water bill and covers water used during the period of October, November and December 2012.

As discussed in the Fall newsletter, there was no increase for the domestic and commercial water rate; excess water was increased by \$0.05 per 1000 gallons. The new rate for excess water is \$1.00 per 1000 gallons for fiscal year 2013. Water rate increases take place in

October, in accordance with the District's fiscal year.

Quarterly domestic water rate, assuming no excess water use, will be \$53.75; this equals \$17.92 per month or \$0.59 cents per day.

The District allocates domestic users 15,000 gallons for the winter quarters. Excess water used is charged at a rate of \$1.00 for every 1000 gallons used.

Understanding Your Water Bill

Our goal is to communicate clearly both your total account balance, as well as the current amount due. These amounts can be different due to the 2nd half Irrigation Assessment being charged to the account in December but not due until June.

The **Account Activity** section of the bill covers all transactions during the statement period, (previous three months) and reads as follows:

The balance brought forward at the **beginning** of the quarterly billing cycle.

Then total payments received in the quarterly billing cycle, then all charges assigned to the account during the quarterly billing cycle. Note: some of these charges may have already been paid during the quarter, you are not being charged again. The **Total Account Balance** will end the list of charges.

Below the Total Account Balance will be the **Current Balance Due**. This is the amount you need to pay before the due date to keep the account current. This same amount will be reflected on the payment coupon.

Important Dates to Remember:

- *January 8—Board Meeting at 6 PM*
- *January 21 - Closed in Observance of Martin Luther King Day*
- *January 31- Quarterly payments are due*
- *February 5- Board Meeting at 6 PM*
- *February 18 - Closed for Presidents Day*
- *March 5 - Board Meeting at 6 PM*
- *April 2 - Board Meeting at 6 PM*

Call before you dig.

Email & Text Message Reminders

We are excited about our Email & Text Message Reminder service available to all our customers. If you sign up for this service we send out a reminder email or text message when bills have been mailed, bills are approaching due date, second half irrigation assessment due and backflow testing is due.

If you would like this reminder email or text message sent, please provide your email address or if electing a text message your cell phone number and carrier.

For example: district@haydenirrigation.com or 208-555-1234 with AT & T. Please contact us via our website or call us to be added to the list.

The Board and Staff at Hayden Lake Irrigation District would like to wish you a Happy New Year!

Upcoming Billings:	Look for it:	Due Date:
1st qtr. 2013 usage	April 10	April 30
2nd 1/2 Irrigation Assessment	Sent 11/14/2011	June 20

Website Update

We have added a new "Announcement" page to our website. We use this page to post our meeting agendas, a copy of our postings to the legal section of the Coeur d' Alene press, timely notifications about the drinking water and any job openings.

Also, we would like to remind everyone about the Water Alert/ All Systems Operational Button located on the Home Page. We use this as a way to communicate status of any water outages or water concerns.

We encourage our customers to visit our website for information about the District and the water we serve.

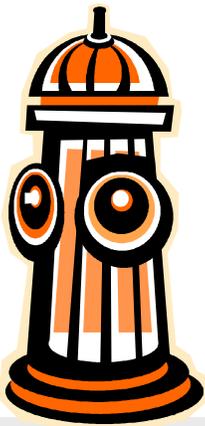

Update Your Records

There are times we need to contact you; sometimes in an emergency. Accurate up-to-date information makes this possible. If we don't have the contact information the only option may be to turn off your water. Please use the back of the payment coupon to provide us with a telephone number where we can reach you. You will only hear from us if it is necessary. Thank you!

Traveling for the Winter

Traveling south this winter? Before you go, please provide the post office with a forwarding address, or provide us an alternate mailing address so our mail will reach you.

Fire Hydrant Access

We would like to ask our customer to help us; the local firefighters; and yourselves by clearing the snow away from fire hydrants. If you have a fire hydrant on or near your property, please check it after a significant snowfall or after the snowplow goes through the area. If the hydrant looks inaccessible, please pitch in and clear away the snow. In the event of an emergency, every second counts and we want to ensure quick and easy access for firefighters. Thank you for your help!

Mailing Address

Please make note of our correct mailing address:

Hayden Lake Irrigation District

2160 W Dakota Avenue

Hayden, ID 83835-5122

All correspondence and payments must be sent to the above mailing address.

Please use the back of your coupon, our website or call us to update your mailing information including your phone number.

It is the customers responsibility to keep this information current.

Backflow Testing

The Hayden Lake Irrigation District manages and maintains our backflow prevention program in accordance with Idaho Department of Environmental Quality regulations.

The District has a responsibility to prevent potential contamination from entering the distribution system. This responsibility is addressed through the Districts Backflow Prevention Program. Testing of all backflow assemblies by a certified tester is required by the District and the State. Assemblies must be tested annually; lawn sprinkler systems must be tested when the system is recharged (turned on) and/or prior to June 30th. The system doesn't have to be operating by June 30th but a satisfactory backflow test must be submitted.

The District will send a letter to all customers in March as a reminder to have the backflow assembly tested. We will send another letter 30 days before the June 30th due date. The District will track assemblies in our software and if test results are not received by June 30th, we will send a final letter to have the backflow assembly tested within 15 days. The final step is a door tag notice of disconnection. If this is necessary, there is a \$20.00 door tag fee applied to your account. If assemblies are not tested the District may terminate water service until the assembly is tested and found to be in working order.

We appreciate your cooperation in preventing contamination of your water.

Reminders can be sent via email or text messaging, please contact us to sign up.

How to Contact Us

Hayden Lake Irrigation District

2160 West Dakota Avenue

Hayden, ID 83835-5122

Phone: 208-772-2612

Fax: 208-772-5348
